04 BASIS AND EXCLUSIONS

READ BEFORE IMPORT OR ANALYSIS

1. All dimensions are nominal exercise geometry, in millimetres.
2. Steel sections, grades, welds and anchors are NOT designed.
3. No approved structural loading or surveyed site datum supplied.
4. Deck/slab and beams are only conceptual solids here.
5. Foundation boxes have no validated rebar, soil or capacity.
6. Physical connection stiffness and load paths are unknown.
7. Drawing is for GeoAI import/extraction and UI testing only.
